

PRODUCT NAME

INTAKE & VALVE CLEANER

PRODUCT CODE

VTP-2010

PRODUCT CATEGORY

AUTOMOTIVE ADDITIVES & LUBRICANTS

Valor's Intake & Valve Cleaner is a powerful blend of solvents and detergents that quickly dissolves heavy deposits that accumulate on the intake valves, ports and combustion chambers of gasoline direct inject (GDI) engines. GDI engine are prone to rapid deposit buildup due to the placement of the injectors and design of the intake system. Valor's Intake & Valve Cleaner is specially formulated to withstand intake temperatures and ensure maximum potency at the points of cleaning. When applied with customized equipment and adaptors, this advanced formula can restore lost power, fuel economy and performance.

APPLICATION

Vehicle should be at operating temperature. Recommended Method: Follow instructions for use with VTP-1304 On-Engine Cleaning Tool for Fuel Systems.

FEATURES

The most concentrated and powerful deposit removal technology available on the market.

Designed to restore engine performance - removes heavy deposits that can cause rough idling, poor acceleration, harmful emissions and reduced fuel economy.

Reduces exhaust emissions - Through the cleaning process and chemical reaction, harmful compounds in the exhaust are converted to inert compounds which can result in lower emissions readings.

Avoids the need for disassembly and expensive repairs.

Will not harm oxygen sensors or catalytic converters when used as instructed.

PACKAGING FILL: 16 oz. CASE QTY: 12 CASE WT 14.37 lbs.

SPECIFICATIONS

TEST	ASTM METHOD	TYPICAL RESULTS
Appearance	-	Mobile Liquid
Color	-	Colorless
Odor	-	Solvent
Specific Gravity @ 68°F	D1298	0.91
Density, US lbs/gal @ 68°F	-	7.60
Flash Point (°F) PMCC	D93	81
% VOC	-	99.0
